

BORIS JOHNSON DECLARED THE SOCIAL WAR, HE WILL HAVE IT BUT NOT AS HE WISHED !

The miserable stooge at 10 Downing Street, at the behest of the globalist capitalist class, applies, word for word, the totalitarian health directives imposed by the decaying cosmopolitanism of the commodity...

Since 2018, the catastrophic crisis of capitalist decay has frozen the disintegration of the economy of the alienated world through negative interest rates policy producing the refractory emergence of the *Yellow Vests*... This has caused the imperative obligation for the spectacle of the commodity to *disguise*, at all costs, the looming gigantic commercial and banking collapse...

Thus, in order to cover up the planetary decay of the law of value and delaying as much as possible the *awakening* of the radical proletarian struggles, the world order of the reign of the despotic quantity has staged – on the grounds of a relatively conventional respiratory infection – a health coup entirely based on a media-produced *mythological* viral danger decorated with delirious statistical tricks... And while all the useful conventional medications were being prohibited within deteriorating hospitals and health facilities, the state diktat of the medical police rushed us towards the dogma of the penitentiary vaccine...

The capitalist deception of the Delta variant impostures is nothing else than the superior form of the inadmissible historical crisis of the falling rate of profit...

150 years ago, the Paris Commune was crushed by all the gangs of the modern quackery of the democratic tyranny of the Market !

May the *Commune* of Everywhere arise from now on to forever sweep away all the rights and all the lefts of the Capital !

Every official truth is in essence a *governmentalist* mystification of the capitalist order...

**GENERAL MOBILISATION AGAINST THE CONCENTRATIONIST
MASS-INCARCERATING DECEPTION OF THE ENDLESS CAPITALIST VIRUS !**

Down with the sanitary tyranny of the lies of the state spectacle of the final crisis of the Capital ! Against all censorships, let us break the chains, ***Forward and Upright !***

Long live the World Class War of the Proletariat against all Parties and Unions of the commodity-planet and for a world without any exploitation and alienation!

**LONG LIVE THE *UNIVERSAL COMMUNE*
FOR A WORLD WITHOUT MONEY OR STATE !**
