

CAPITALIST GLOBALISATION IS COMPLETING THE PLANNED MURDER OF EUROPEAN AGRICULTURE...

Until the dawn of the 20th century, Europe was still largely a peasant's universe of terroirs and of traditional savors with multiple diversities not yet fully integrated into the uniformity of the market dictatorship... The two imperialist capitalist massacres of 14-18 and 39-45 organized the methodical genocide of this then outdated world and at the same time as they industrially liquidated material overproduction they immolated in blood and pain the *overflow* of millions of surplus human beings with respect to the general saturation of the world market...

By turning the peasants into farmers dependent on the banks, the chemical industry and the organized destruction of soils and people, Bruxellian's Europe - a CIA, Pentagon and NATO creation - decided since 1945 to progressively put to death the old time of the European land to definitively replace it with the crap factories of the American empire and of its Brazilian, Canadian, Australian and New Zealand branches...

Worker of the European Land, of France, of the Netherlands, of Italy, of Spain and of everywhere else... Even though you don't know it yet, you are now only a simple enslaved proletarian of the Global Factory, that is to say a human residue in a *ridiculous* anonymous green suit, without any power over your suicidal life, sold daily by the governmental agricultural unions so that the *europeanist* agricultural policy of your programmed disappearance reaches the end of the diktat of the stooges of Brussels and Washington...

In the factory, in the offices, on unemployment benefits or on the plots of land of contemporary enslavement, we are all just *reserveless* people dispossessed of our existence... But this world of the total crisis of the totalitarian commodity quantity is currently collapsing... **May it die as soon as possible!**

Long live the Worldwide Class War of the Proletariat against all the Parties and Trade Unions of the commodity-planet and for a world without exploitation nor alienation!

TOWARDS THE *UNIVERSAL COMMUNE* FOR A WORLD WITHOUT MONEY, WITHOUT WAGE-LABOUR, WITHOUT STATE!
